

# Soumyajit Das

Final-year Computer Science student passionate about building scalable full-stack and AI-powered applications. Skilled in React, Node.js, MongoDB, and RESTful API development with a strong foundation in Data Structures and Algorithms. Seeking a Software Developer or Web Developer role where I can contribute to high-impact projects and grow as a full-stack developer

## Work Experience

### Full Stack Developer Intern

Jul 2025 - Oct 2025

ARDENT COMPUTECH PVT LTD | Kolkata, India

- Engineered a responsive doctor-appointment platform using React, Tailwind CSS, Node.js, Express.js, and MongoDB.
- Integrated secure JWT authentication and optimized API calls for faster performance.
- Collaborated with a 2-member team, contributing to UI/UX enhancements and backend development.

## Projects

### Carehive-Clinic Web Application

[Code](#) | [Demo](#)

- Full-stack doctor appointment platform with secure authentication, minimal UI and simple workflow with patient dashboard.
- Implemented RESTful APIs for booking and admin control, ensuring reliable backend communication.
- Deployed the application backend on Render and frontend on Vercel, ensuring responsive performance across devices.

### YatraMate Web Application

[Code](#) | [Demo](#)

- Led the end-to-end development of YatraMate, a full-stack car and bike rental platform, implementing complete booking, vendor, and user management workflows.
- Developed and deployed the frontend using React.js, Tailwind CSS, and Vite on Vercel, and the backend using Node.js, Express.js, and MongoDB on Render, ensuring secure API integration and real-time data handling.
- Optimized the system architecture for scalability and maintainability, incorporating authentication, data validation, and modular RESTful services to achieve production-level performance.
